For the attention of Terry Haydon

Dear Terry

**CCF East London Business Centre and Partition System showroom.**

This letter is long overdue in formally thanking Detail Office Interiors for their contribution in helping us to create such an excellent facility at our East London branch a flagship for the company.

The London Business Centre doubles as a Partition System showroom therefore the quality of the installation came under the closest scrutiny during the build as does so virtually every day as we invite in prospective purchasers and indeed fixers of the systems contained within. We are able to display our systems perfectly within the rooms that you have built.

Your company's technical input on design build issues was most welcome and there are several examples of this in the areas that you created for us.

You are most welcome to bring prospective clients to the Business Centre at any time.

Yours faithfully

Steve Lancaster  
Branch Manager  
CCF East London
